# Hiroshima updated

am0:00 〜 am8:14

am8:15

am9:00 〜 am12:59

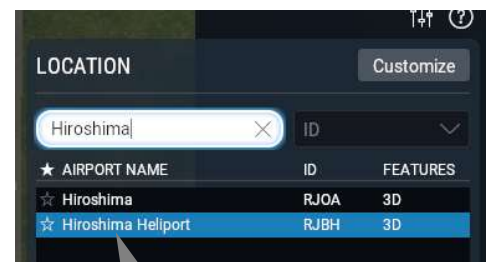

am9:00 〜 am12:59

System requirement:
X-Plane 11 and Scenery of Japan (including +30+130) are pre-installed.

Installation:
Copy "Hiroshima updated" folder into "Custom Scenery" folder under X-Plane top folder.

How to use:
1. It is convenent to start the flight from "Hiroshima Heliport".
   Input "Hiroshima" in LOCATION search field (See right),
   then select "Hiroshima Heliport".
   Small aircraft can take off from a runway in the right of
   heliport, although it is not in use in reality (See below).

Take off

2. You can select an era of the simulation by adjusting slider
   in TIME OF DAY column.

   ・When you set am 0:00 to am 8:14, Hiroshima before A-
     Bombing is simulated.

   ・When you set am 8:15, A-Bombing animation starts
     arround 5 seconds after pressing "Start Flight".

   ・When you set am 9:00 to am 12:59, Hiroshima after A-
     Bombing is simulated.

   ・When you set pm 0:00 to pm 12:59, current Hiroshimais is simulated.

Any part of this scenery shall not be modified and distributed. Do not use this scenery for com mercial purpose.
